The Providence Coal Mines.

[To the Editor of the Interior Journal.]

PROVIDENCE, KY., Aug. 25th.—If you will allow me space in your valuable paper I will give you a brief description of the famous Providence Coal Mines. There are about 320 acres of land lying in Webster county near the suburbs of Providence, underlaid with three veins of the finest bituminous coal in Kentucky, the veins measuring 3½, 5 and 6½ feet, and is the only mine in southern Kentucky that can be worked without machinery for pumping water and hoisting the coal. These mines are now being opened up by E. B. Hayden, formerly of Stanford, and H. C. Thompson, of East Bernstadt, and when in operation will be second to none. Mr. Thompson, the superintendent, has visited all the principal mines in Ohio, Indiana and Kentucky, thereby ascertaining the advantages of all the modern improvements. Everything is being put up in first-class order, neither pains nor expense being spared. The coal is worked with a down-grade slope from the mines to the tipple, and the capacity of the mines is about 50 cars per day. The company has just completed the tipple and elevator; 150,000 feet of white oak and poplar lumber being used in their construction. They have contracted with Dehner-Wuerpel Building Co., of St. Louis to put up the very best elevating machinery. The elevator will hold 15,000 bushels of nut coal. They use for screening their lump coal, 2½ inch diamond bar screen. Fairbanks Scale Co. have just finished putting up a pair of 150,000 pounds miner's transportation and railroad scale with 25 beams. The company has just completed a mile of of railroad track to their mines, that being the distance from the depot. They will also build 100 miner's houses and have a nice location for a miner's town. The company will be ready to ship coal in about ten days. They have employed Mr. W. L. Barnes, of Paint Lick, bookkeeper, Paul Schenk, president of the Swiss Colony at Bernstadt, assistant book-keeper and weigher, and W. H. Thompson, principal agent.

This land was bought from the Givens' by Thompson & Hayden, the present owners, for $17,000. They have placed their capital stock at $75,000 with privilege of increasing to $250,000. The opening up of these mines will greatly benefit all Southern Kentucky and will add much to the enterprise of Providence.

MT. SALEM.

—Owing to a press of business, some time has elapsed since we had the pleasure of addressing the readers of the J. J. and our pen, which is almost as mighty as our sword, has become somewhat rusty. Many things of great importance, which should have been recorded, have happened since our last. One item, which is perhaps not yet too old, was the burning of Mr. Milford Eubanks' barn by unknown party or parties and the abrupt moving away of certain citizens immediately afterwards to parts unknown. Mr. Eubanks' loss was about $300.

—Miss Belle Riffe, a prominent belle of the Hustonville neighborhood, is visiting the family of Mr. M. S. Jones. Mrs. Florence Kinsinger, of Utica, Iowa, is visiting her parents, Mr. and Mrs. M. L. Richards.

—We, the voters of Mt. Salem, have no regular Cleveland club, but we send our names to the clubs at Hustonville and McKinney just the same. We are inclined to think that Cleveland is getting there, though we are informed that one Harrison is about to enter the race, and if he gets full credit for the eulogy dealt off for him by Senator Voorhees at Charleston, S. C., the other day, he may prove a dangerous opponent. The said Senator characterizes him as follows: "I know the man in my State who is the candidate of the republican party. Gen. Butler knows that I speak the truth when I say that a more uncharitable, intolerant narrow-minded bigot in politics never lived than the republican candidate for president." SUT.

—There is an improvement in the Louisville tobacco market, Burley especially advancing in price. The sales last week were 1,489 hogsheads against 1,140 the week before. The recent rains did great damage to tobacco ready to cut, amounting, it is said, to 50 per cent. in Southern Kentucky.

About Race Horses.

Proctor Knott has proved himself the best 2-year-old of the year so far, having won the Westside Stake at Nashville, the Alexander at Louisville, the Kenwood at Chicago and the richest of all, the Junior Champion, making his winnings foot up over $30,000, and now has most decidedly the best showing to win the great Futurity, to be run the 4th of September, which will be worth over $48,000 to the winner. Should he win this, his sire, the great Luke Blackburn will be at the head of winning sires by some $20,000 or more. Last spring, at the Belle Meade sale, the get of Luke Blackburn were not in demand and sold very low; now they are all sought by racing competitors. Luke Blackburn himself is a young sire and like Leamington, Glenelg and others, was condemned because his first were not "first-class" their first season out. The young sires at the great breeding establishments of Kentucky and Tennessee—Luke Blackburn, Hindoo, Spendthrift, McDuff, Falsetto and others—promise to keep up the high quality of horses established by their sires and grandsires. While it should not be forgotten that their progeny has to run and win over the hottest competition ever before known to the American people. A few years since an extra good horse was generally good for everything he started for, while now he has to be extra good and continue to improve to continue to win good stakes, or even purses, for never before was there so many good horses facing the starters. And where so many are good, that glorious uncertainty, THE BEST, it seems folly to try to select, except for particular events, then 'tis safest to wait until nigh the time. But Proctor Knott, barring accident, will win the Futurity next Tuesday. L.

LANCASTER, GARRARD COUNTY.

—Garrard College will open on Tuesday, Sept. 11.

—Major J. A. Burnside reports the tobacco crop away over an average.

—Messrs. C. O. Tyner and Wilson, of Atlanta, are visiting Dr. W. S. Elkin.

—The Garrard republicans hold a convention to-day, Monday, to appoint delegates to the Danville meeting on the 11th prox.

—The members of the Buckner Club will please all be present at the courthouse on next Saturday, September 1st, at 3 o'clock P. M.

—The tobacco crop is being badly injured by so much rain. In many fields the scaffolds have fallen, almost ruining the tobacco on them.

—A Garrard county boy, upon being asked who are the three greatest living men, said, "Mr. Jim McCreary, Grover Cleveland and Simon Bolivar Buckner, and there is Mr. Henry Watterson, too."

—Mrs. W. O. Rigney and children are visiting Mr. R's. father in Casey county. Messrs. W. M. Schmucker, W. J. and L. J. Frazier, of Powers & Co., left yesterday for Columbus, Ohio, to which place they have removed their stock of goods.

Rigney. Dr. Simpson Elkin, of Atlanta, Ga., is visiting relatives in and about Lancaster. John W. Miller is in Cincinnati.

—The case of Charles White in the circuit court resulted in his being found guilty of manslaughter, for the killing of Jack Grimes, and sentenced to the penitentiary for 11 years. There will an effort be made by his attorneys for a new trial, on the grounds that the jury arrived at their verdict by lot, a method that is forbidden by law.

—Major T. A. Elkin, of "Maples," will give premiums amounting to $80 for the best get of his fine stallion, Arthur Sims; $40 for the best colt in the sweepstakes, $20 for the best mare colt and $20 for the best horse colt foaled in 1888. The awards will be made on county court day in September at Walker & Doty's livery and sale stables in Lancaster.

—It would be a blessing to this country if our grand juries would find fewer indictments. They should be thoroughly satisfied that an indictment would stick before they commit themselves. Now, at this term of the circuit court, out of about 50 indictments for alleged violation of the whisky law, not one has held good. It is just costing the State money for nothing.

—The case of James I. Hamilton, who killed Joe P. Turner while marshal of Lancaster, resulted in an acquittal. The prosecution was conducted by the County Attorney of Garrard, Mr. J. H. Brown, Commonwealth's Attorney Herndon and Mr. W. H. Miller, of Stanford. The defense by Messrs. Kauffman, Landram, Tomlinson, of Lancaster, and Judge M. C. Saufley, of Wyoming Territory. The verdict gave universal satisfaction to the citizens of Lancaster.

—Those people of Stanford who remember Mr. L. S. Jones, a young Southerner, who came to your town some years ago, worked in the depot there, was afterward agent for the L. & N. at Pine Hill, and a correspondent of the I. J., will be glad to learn that he is to-day a rich man. About two years ago he removed from Louisville to Hartland, Kansas, where he has been engaged among other things in the real estate business. By a recent sale of 110,000 acres of coal land in Colorado, the commission on which amounts to $550,000, Mr. Jones gets one-fifth, or $110,000. Hurrah for Luke!

—A paper mill bleacher exploded at Neenah, Wis., killing 18 men and and seriously wounding a number of others.

—"Buggy" Burns, the accomplice of Charles Dilger, the Louisville murderer, is held to answer before the grand jury without bail.

—Hon. T. Spicer Curlett, ex-member of the Virginia legislature, has been forced to resign his position as Comwonwealth Attorney of Lancaster county, Va., for sending a man a challenge to mortal combat.

—A ball 9 feet in diameter, bearing the portraits of Harrison and Morton, and the names of the 38 States and Dakota, has been started from Dresden, O., and will be rolled through the country until the close of the campaign, if the leaders furnish money enough.

—A 17-year-old girl at Logansport, Indiana, swallowed poison and died, after writing this note to her sister: "I have taken morphine because I have been deceived by Ed Wise. You will please let Wise see my face after I am dead. Goodbye. I have gone to hell. Frankie Wingard."

DANVILLE, BOYLE COUNTY.

—The mail services coming into Danville from all directions is in bad condition. The INTERIOR JOURNAL has not been on time for weeks.

—Mr. Geo. Dimmett, a native of Boyle county, but for several years an attorney of Kansas City, is here on a visit. Mr. Jas. Tipton, whose illness has been mention, was able to come to town this morning.

—A convention of the republican voters of Boyle county is called to meet at the court-house, Wednesday, Aug. 29th, for the purpose of selecting delegates to the 8th congressional district convention which meets in Danville Sept. 8.

—Rev. Geo. O. Barnes closed his two-weeks' meeting at the court-house Sunday night. A large congregation was present and gave earnest attention to the discourse, which was concerning the lost tribes of Israel. He goes from here today to Independence.

—Mr. D. G. Slaughter, of Dripping Springs, was in town Saturday working up his grand excursion of next Friday. Mr. Edmond Meyer, for several years past with Joe Haas, of this place, leaves Tuesday for Louisville, where he will embark in the shoe business. Mr. P. A. Marks went to Newport Saturday and will be absent about ten days. Prof. W. K. Argo has returned from Colorado much improved in health.

SEMI-WEEKLY INTERIOR JOURNAL

STANFORD, KY., AUGUST 28, 1888

W. P. WALTON.

TARIFF.—This is Allen G. Thurman's definition of it: The tariff is nothing but a tax imposed by the General Government upon goods, wares and manufactures imported into the United States for sale. the effect of which is to raise the price of everything upon which it is put, and not only to raise the price of the articles upon which it is put, but to raise the price of similar articles that are manufactured in this country.

THE refusal of the republican Senate to ratify a treaty with the Canadian government, negotiated by President Cleveland and Mr. Bayard for the purpose of settling the fisheries dispute, and of maintaining the rights of American citizens, put the President on his metal and he immediately sent to the august body a message that has rattled the republican leaders and set the whole world to thinking. The message is a clean, concise and vigorous statement of the troubles and invokes the Senate, since it has rejected the peaceful settlement of them, to give its aid and counsel and the further grant of power that seems necessary to an effective execution of the plan of retaliation suggested by existing laws, which if entered upon will be made thorough and vigorous. The document ends with the assurance that he intends to protect the rights of American citizens at all hazards and asks that the republican members of Congress consider the questions involved calmly and patriotically and with an eye single to the interests of our people and the high standard of American citizenship. The message has given the lie to the republican charge that the administration is under British influence and will have the effect of solidifying the Irish vote for the democracy, which it was claimed would go to the republicans on account of the "jingo" policy of Blaine, the head and brains of the party. Like all of Mr. Cleveland's public utterances and papers, the message comes at the right time and in the right language and adds to the growing sentiment that he is the grandest statesman of his day.

JOE MULHATTON, who was elected at the last meeting as an "Onery member of the Kentucky Press Association," came near finding a watery grave in Green River last week, or at least he says he did. He attempted to ford the treacherous stream after a heavy rain. His horse took fright at some floating object, and in plunging around threw Joe overboard. Not being able to swim, he was washed down the current, crying the while lustily for help. It came in the shape of a pretty widow, who stuck out a long pole to the champion liar, who was now a demned moist body, and he clutched it in time to save his lying soul from the perdition that awaits it, if he repents not the error of his way. Instead of thanking his savior and proceeding on his journey, he showed the base ingratitude of his nature by immediately proposing to marry the widow, who is described as fair, fat and forty, and well heeled financially. We did not hear her answer, but if she accepted his proposal she will live to regret that and the fact that she did not let him drown, unless she is somewhat of a prevaricator herself and likes that kind of company.

THE democrats have nominated candidates in the 1st, 3d, 8th, 9th and 10th districts, while Gen. Wolford is the recognized democratic candidate in the 11th. Stone will be renominated in the 2d, Montgomery is opposed by Clements in the 4th, Caruth has no opposition in the 5th, Carlisle none in the 6th and Breckinridge none avowed in the 7th. The leaders say they intend to elect an unbroken democratic delegation, but work will have to be done in the 3d, 9th 10th and 11th districts to do so. It can be done, however, if the party will unite and give a long pull, a strong pull and a pull together for success.

HON. D. R. FRANCIS, mayor of St. Louis, having secured the nomination for governor of Missouri, the question of who will be the next executive of the State is practically settled and the little boy who used to paddle in the waters of Dix River, in this county, will steer the ship of State in the grand old democratic stronghold, which will honor itself by honoring him. Mr. Francis is a kinsman of our Col. Thos. W. Miller and others and a nephew of Mr. S. V. Rowland, of Danville.

THE democrats of the 3d district, which was lost to them two years ago by a row over the nomination between Halsell and Rhea, have nominated Isaac Herschel Goodknight, of Simpson, a bright young lawyer, and brother of Prof. T. M. Goodknight, who married a Lincoln county girl. If the bitterness engendered heretofore can be forgotten and the party will unite, Dr. Godfrey Hunter will serve only one term in Congress.

B. F. DAY received the democratic nomination for Congress in the 10th district on the 38th ballot, beating his townsman, Brooks, and J. D. Black, of Barbourville, the latter withdrawing his name early in the action in the interest of harmony. There is no walk-over for any democrat in the 10th, but the party can win if it will give Judge Day the support they should.

IT is said that 50,000 people gathered to hear the Noblest Old Roman of Them All speak at Chicago and that his effort, like that at Port Huron, was worthy of the attention it received. Speaking of a redundant and overflowing treasury, Judge Thurman recalled the words of Gov. Billy Allen, of Ohio, who said: "You might as well undertake to keep a powder-house in hell as to have an honest government with a surplus in the treasury," and added: "That was the truth very forcibly expressed, and now I can appeal to you just to look at what Congress is about and see whether or not this is the truth." The Old Roman has stood the round of speaking finely and seems as full of life and vigor as a boy of 40.

GEORGE B. LETCHER, who probably ought to have been hung for killing Dr. Evans at Nicholasville, instead of being given 21 years and then getting a pardon, has been sentenced to the penitentiary for five years for obtaining money under false pretenses in Kenton county. He is the sorry sheep of a very excellent family, who are keenly sensible of the disgrace he has put upon the name.

THE democrats of the 6th do not propose to be caught napping again, but will return Carlisle to Congress with his old time majority. At Covington Saturday night the largest procession ever seen in the city paraded the streets and afterwards listened to stirring speeches by John S. Rhea, T. F. Hallam, Judge Cleary and others. There will be no Thobe business there this time.

CHARLES M. MEACHAM, late of the Hopkinsville South Kentuckian, who has been in California for several months in pursuit of health, has found it and will return at once to Kentucky, where he will be greeted with joy by every pencil-pusher who enjoys either his personal acquaintance or knows his ability as a writer. It is to be hoped he will soon be in the harness again.

THE Belva Lockwood party has adopted the bustle as a campaign badge, but it must not be taken for granted that every woman who wears a bustle is for Belva. The prettiest woman in Stanford is red-hot for Grover, and she wears a bustle as large as a balloon.

THERE are 144 Congressmen off on leaves, seeing after their fences at home, but the House, in order that a quorum shall be present during the discussion of the president's message, has revoked all leaves and ordered the absentees to return to their seats.

THE New York Sun is authority for the statement that President Cleveland has contributed $10,000 to the campaign fund and his cabinet and personal friends in Washington have swelled the amount to $150,000.

THEY do say that the President's message may cause New Hampshire to go democratic and even Maine is now placed among the doubtful States. Why not make the thing unanimous?

THERE will hardly be war with Great Britain. She can't afford it. But Grover is going to make her Canadian subjects do the fair thing, or take the consequences.

CHURCH AFFAIRS.

—Over 2,200 conversions are reported as the result of Boy Harrison's meetings in the St. John's Methodist church, New York.

—Elder W. L. Williams and myself are holding an interesting meeting at Sugar Grove School-House, with 2 confessions to date. J. G. Livingston.

—Rev. T. S. Hubert, of London, in the Jackson circuit, has withdrawn from the M. E. church, South, united with the Southern Presbyterians and has been assigned to labor in Carter county.—[Paris Kentuckian.

—One would not think it, but the Quakers of this country number 75,000, the Free Methodists have a membership of 12,000, the Swedenborgians 5,750; there are 9,000 Reformed Episcopalians, and the Mennonites have 93,000 communicants in the United States.

IT has been estimated that there are now 80,000 salesmen on the road in this country, and that their expense account alone averages $1,625 a year each. This means an outlay of $130,000,000 a year, and, counting an average salary of $1,000 per year, the grand total is swelled to $210,000,000 expended by and on traveling salesmen. The immense sum is scattered throughout the entire country, and furnishes an important item of railway and hotel profits.

HERE are some curious statistics concerning the French Canadian population of Maine. In seven years it has increased 20 per cent. in Waterville and 50 per cent. in Lewiston and Auburn. But the French Canadian family is decreasing in size. In 1881 the average was 5.23, nearly as large as the average Maine family of 1850. In 1882 it fell to 5.06, in 1883 to 4.93, in 1884 to 4.90, in 1885 to 4.88, in 1886 to 4.85, in 1887 to 4.82, and in 1888 to 4.80. The average Maine family has decreased from 5.64 in 1850 to 4.58 in 1880.

NOTES ON WRITERS.

HARRIET BEECHER STOWE is the first woman admitted to the Author's Club, of which she has just been made an honorary member.

NATHANIEL HAWTHORNE was a shy man. His son Julian says: "I never saw my father in the act of composition—no one ever did."

"OCTAVE THANET," who has become known as a writer of very bright and original short stories, is Miss Alice French, of Davenport, Ia.

AMELIA RIVERS, George Meredith and Robert Louis Stevenson form the literary trinity now in the ascendency. They are the popular "fads."

RUSKIN, in a note to the London *Times*, declares that he knows nearly all of "Pickwick" by heart, and that he loves Dickens "with every bit of his heart."

MISS LOUISA M. ALCOTT realized more than $100,000 from her literary work. Friends who assume to know say that within the last year her income was $15,000.

MISS MINNA IRVING, the poetess of Tarrytown, N. Y., claims the proud distinction of possessing the smallest foot in America. She wears a slipper exactly one size less than No. 1, and keeps samples on exhibition at the different newspaper offices in New York.

MR. LEWIS MORRIS' definition of poetry is this: All writing tending to noble emotion or reflection leading to such emotion having for its subject mankind or the material universe or both in relation to God and using for the most part the vehicle of rhythmical form.

MR. RIDER HAGGARD, in a moment of irritation, thus explained "She." "Well, there are many explanations, but perhaps the best is that women are vain. Ayesha was vain. She liked to dazzle men with her charms, and finally her vanity was the cause of her death."

THE attention of men of money is again called to the sale of Lincoln county bonds, which is to be made at auction here next Monday.

THE house that I. M. Bruce is building on his lot in the extension in the eastern portion of town is rapidly approaching completion.

A SMALL watch and chain was found by a little negro boy under the depot platform and turned over to Marshal G. S. Carpenter, from whom it can be obtained by paying the boy and for this notice.

THE town has been painted red by the bill posters for Col. Geo. W. Hall's circus and Bingley's monster menagerie, which will exhibit here Sept. 7th, and at Crab Orchard the 8th. See "ad." telling all about it in next paper.

THE largest number of prisoners ever in jail here at one time now sojourn in that establishment. There are 21, 10 of whom are charged with murder. The majority of them, we are glad to say, are from other counties, where the jail facilities are not so good as ours.

THE Laurel Coal miners have signed an agreement to go to work at $2.80 a hundred for coal from 1¼-inch screens, and $2.87½ for coal from 1½-inch screens. There was one price last season, $2.75. The compromise was effected by Randolph H. Blain, who was agreed upon to settle the trouble.

HE'S THE MAN.—Detective Bowman was here Sunday and visited the jail, where he picked out W. M. Jenkins from the lot of 21 as the man wanted in Birmingham, Ala., for murder and for whom he says there is a reward of $500. Bowman had never seen Jenkins before and the recognition was entirely by the description.

MESSRS. S. L. POWERS & Co. have closed their store at Lancaster in order to open a large store at Columbus, Ohio. The store at this place will be under the management of Mr. Joe S. Jones. Mr. J. D. Swain will manage the one at Hustonville and Mr. S. L. Powers will make headquarters at the one at Columbus, but will spend most of his time visiting his various stores. *

WE note in the INTERIOR JOURNAL that Mr. A. K. Denny has taken the stump in Lincoln, having made a speech at Hustonville on Saturday and is booked for another at Stanford on court day. Can't he "deaden over the line" a little and let his Boyle county friends hear him? He is well posted on all matters, but especially so on the tariff, from the farmer's standpoint.—[Danville Advocate.

MR. MATT. WOODSON, train dispatcher, is quite ill, and has been taken to the home of his father-in-law, Mr. O. J. Crow, in the country. Owing to sickness in the dispatchers' office at Louisville, Mr. T. A. Rice was called thither and for four days and nights Messrs. J. E. Florence and W. F. Packard held things down here. It was pretty rough, but they got through all right. Mr. Rice is back now and working the third trick.

THE Governor's Ball was a very elegant affair and was very largely attended. The towns in this section were well represented and all express themselves delighted with the manner in which they were treated. In addition to those who were already there, the following attended from here: Mrs. J. W. Alcorn, Mrs. I. M. Bruce, Mr. and Mrs. S. P. Stagg, Misses Mary Alcorn, Sue Rout, Anne and Ella Shanks, Gena Peyton, Belle Cook, Rhoda Portman, Messrs. D. R. Carpenter, J. T. and C. C. Carson, J. H. Baughman, W. A. Tribble, John Smiley and others.

SEVERANCE & SON will open their large, new dry goods store about the 15th of September.

THOSE who intend to visit Hales Well this season will please do so at once, as I will close early in September. A. L. Spoonamore. *

DEATH.—A little daughter of Mr. and Mrs. William Dawes, aged 11 months, died Saturday night of brain fever. Mrs. Dawes is also very ill with flux.

I HAVE just received a big line of fall shoes of the Zeigler Bros.' make, and invite my customers to call and examine them. S. H. Shanks. *

HAVE already received and am daily receiving a line of the most desirable fall and winter suitings the market affords. Call and examine them. H. C. Rupley. *

JIM ADAMS, who is indicted for hog stealing, was arrested and put in jail Sunday night. Dink Farmer and several others captured and brought him to town.

NEXT Saturday, September 1st, I will begin to handle fresh fish, oysters and celery, and will run through the season, determined not to be undersold by any one. My stock will always be fresh. J. T. Harris. *

THE little negro burglar, Jim Farris, is a slick one. Jailer Owens tells us that he tried to get out by picking the lock with a shoe buttoner. The promise of a cowhiding if caught at it again may deter him for a few days.

CUTTING SCRAPE.—Two negro men, Jim Middleton and Tom Hopper, quarrelled over a game of cards in Mackville Sunday and proceeded to carve each other up. Both are pretty badly cut in the breast, but not fatally, perhaps more's the pity.

THE Lancaster News says that Humphrey Best broke up a meeting at Mt. Tabor, near Paint Lick, last week, by acting in an outrageous manner. If the law can not stop him in his wild career it would seem that the good people themselves might show him that he can not continue to act with impunity on any and every occasion.

THE prompt acquittal of Mail Agent James I. Hamilton by the Garrard jury, of the murder of Turner, while he (H.) was marshal of Lancaster, was expected by all who were cognizant of the facts in the case, which was clearly one of self-defense. Charles White, who killed a negro last spring, was given 11 years by the same court.

DEAD.—Capt. B. F. Powell came in yesterday to tell us that John Benson, the man who shot himself a week ago, died yesterday from the effects of the wound in the left lung. He also shot himself in the forehead, but the ball did not penetrate the skull. Two years ago he was struck on the head by a piece of slate, while blasting a well, and since then he has been "flighty" at times. He was from Virginia and leaves a wife and three children.

CAPTURED.—Will Pollock, who has been supposed to be in jail at Shepherdsville, since his capture at Lexington, on forfeited bail, was arrested here by John Newland and Jailer Owens, just as he was about to reach his mother's house, and placed in jail till yesterday, when he was returned to Shepherdsville, where he is under indictment for robbing L. & N. cars. It seems that the jailer of Bullitt, who deserves to be seriously handled for it, has been letting Pollock go at will for some time, especially culpable since he had run off once before and given the authorities much trouble.

THE thief who had successfully entered four stores here and gotten off with the contents of the money drawers and some other things, turns out to be a little negro boy named Jim Farris, from Lancaster, who has been working here, and who is but 14 years of age. The attempt to pass a counterfeit dollar in Lancaster that he got out of some of the drawers, lead to his capture, on information of Mr. Peter Hampton. When arrested he had McRoberts & Stagg's watch and some of the cents that he got from them. He confessed to the burglaries and denied that he had an accomplice. Waiving an examination, he was held to circuit court.

FREE EXCURSION.—Mr. D. G. Slaughter, proprietor of Dripping Springs, advertises a free railroad and carriage excursion to his popular resort on the 31st and Sept. 1st, from Lebanon, Junction City and Stanford. The visitor will buy a round-trip ticket from either of those stations and the amount will be deducted from his bill, which will be at the low rate of $1 a day from 3 to 15 days, as you like. Anybody from anywhere can join the excursion and receive its benefits. A grand mask ball and display of fireworks on the night of Sept. 1 are some of the big attractions promised. It is expected that a hundred or more will take advantage of this most liberal proposition, which the proprietor makes as a fitting close of a most prosperous season. If our readers could see the big advertising bill, which Mr. Slaughter has just sent us a check for, with "I find your account all right and charges satisfactory. Enclosed find amount in full and accept my thanks for your many kindnesses," they would be convinced that he believes in printers' ink and attributes much of his success to it.

SPEAKING.—Remember that Messrs. R. C. Warren and A. K. Denny will address the people at the court-house next Monday.

I HAVE moved my meat shop to the old Dr. McRoberts office, on Lancaster street from the cellar under the VanArsdale store, where I will be glad to wait on my customers. W. F. Ramsey.

REV. GEO. O. BARNES, Mrs. Barnes and Misses Marie and George Barnes came over after services Friday night and staid till next day with Mr. and Mrs. J. M. Wray, at their old Pink Cottage home. While there the good evangelist and his daughters made a special visit to the afflicted editor, which he appreciated with the full gratitude of a thankful heart.

LANCASTER COURT.—Only a few yearling cattle on the market yesterday and none sold. The only trading done was in yearling mules, a good many changing hands at from $70 to $109. A few mule colts brought from $40 to $55.

Casey County Teachers' Institute.

The Casey County Teachers' Institute closed at Liberty on the 18th inst., after a working and successful session of five days. In the closing exercises the following resolutions were adopted without a dissenting voice:

WHEREAS, We, the teachers of Casey county, have been, pursuant to law, assembled in the capacity of a teachers' institute, therefore be it

RESOLVED, That we hereby tender our thanks to County Superintendent J. F. McBeath for the courteous manner in which he has provided for us; to Prof. W. P. Thomas for the industrious and faithful manner in which he has conducted our proceedings, and to other officers and committees for their labors in our behalf.

2, That our thanks are due our landlords and others connected with the hotels for the polite and careful attention given to us, and to the citizens generally for their social and friendly treatment.

3, That we believe that the general welfare and safety of this great Republic of ours demands urgently a universal education of the masses.

4, That the greatest drawback to a full development of common schools in many States is a want of sufficient means.

5, That we earnesty favor a distribution by the general government of sufficient funds to the States to bring up our schools to an efficient standard.

6, That we care not from what resources these funds are derived—whether from a surplus in the treasury or the proceeds of public lands, but so restricted that they can not be diverted to other purposes; and also further restricted so that no real or imaginary State right may be infringed upon in forcing mixed schools contrary to the wishes of the people. We further believe that it would be best that these funds be distributed on the basis of illiteracy.

7, That a copy of these resolutions be sent to the Kentucky Advocate, INTERIOR JOURNAL, Yosemite News and Educational Courant for publication.

J. L. DEVER, A. P. YOUNG, JENNIE ELLIS, } Com'tee.

After a touching valedictory by Prof. Thomas, the Institute adjourned.

Counterfeiting a Baking Powder.

The public is too well informed as to the danger from alum baking powders to need any caution against using them. It is, nevertheless, a fact that many of our most prudent and careful housekeepers are, without knowing it, using these deleterious articles daily, and from them preparing for their families food which, were they aware of its nature, they would not offer to a beggar. Baking powders made from burnt alum cost less than four cents a pound. When these can be worked off in the place of the Royal Baking Powder, and sold for forty or fifty cents a pound, there are many manufacturers and dealers sufficiently unscrupulous to do it.

A favorite method of selling these poisonous alum baking powders is by placing them in empty Royal Baking Powder cans and weighing them out in small quantities when the Royal Baking Powder is called for by customers. The grocer, if questioned, claims that he buys in large packages at a lower rate, and is thus able to sell below the price of the goods in small cans. All baking powders sold in this way are entitled to suspicion. Analyses of many of them have been made with a view to prosecution, and in all cases they have been found largely adulterated and generally made of poisonous burnt alum. This is selling counterfeit goods, and is, of course, an offense against the law. We are glad to know that the Royal Baking Powder Company have taken the matter in hand, and are acting in a way that will protect the public from the swindle.

The surest protection from this fraud is for the housekeeper to buy the baking powder of the brand she wishes in the original unbroken package, looking care to see that the label has not been tampered with. The Royal Baking Powder Company announce, what is well known that their goods are packed for the convenience of consumers in cans of various sizes, but are never sold in bulk, by the barrel or loose by weight or measure. The cans are securely sealed with the company's trade mark label, and the weight of each can stamped on the cover. Any baking powder being peddled out by weight under the name of Royal they denounce as bogus and to be avoided.

Consumers should bear these facts in mind if they do not wish to have imposed upon them the poisonous alum stuff that is being profusely distributed over the country under the name of baking powder. If, however, they buy the Royal in cans with unbroken labels, they are always sure of using a baking powder perfectly pure and wholesome, and of the highest test, strength and efficiency.

"No disease among my chickens, finest of plumage, plenty of eggs, with less food," is what Mr. W. B. Smith, Business Manager of the Glasgow (Ky.) Times, says since using Ganter's magic chicken cholera cure for three years. 2t

TRADE TOPICS.

SAWDUST is now sent to market in bales, very strongly compressed.

CHEMICALLY prepared cigarette paper is imported into this country at the rate of $1,000 worth a day.

WISCONSIN ships large quantities of mud turtles to the East, where they are converted into mock turtle soup.

CLAUS SPRECKELS will have his new refinery in Philadelphia in running order in one year, with a capacity of 2,000,000 pounds of raw sugar daily.

ABOUT ninety-six per cent. in value of the annual exports of the United States to India, which amount nearly to $4,000,000, consists of petroleum.

EVERY minute 600 pounds of wool grow in this country, and we have to dig 61 tons of anthracite coal and 200 tons of bituminous coal, while of pig iron we turn out 12 tons, and of steel rails 3 tons.

SOMETHING very like a peach trust is talked of in Delaware. It comes in the guise of a central bureau, through which the entire peach crops shall be placed upon the various markets as the actual demand dictates.

IT is said that more than half of the cheese now consumed in Great Britain is made in this country and in Canada. The American and Canadian cheese pays its freight to England and then undersells their articles on its solid merits.

A TREMENDOUS business is done in pineapples in New York each season. From April until August the fruit comes in at the rate of ten thousand barrels a week. It is estimated that five million pineapples are imported each year.

UNCLE SAM has been asked to help establish a steamship line with Jerusalem and the far East—at least with the coast. The Eastern products are wool, licorice and silk. Last year's shipments reached $15,000,000, but reached us via Liverpool.

A BRITISH writer declares that not a kernel of the best Mocha coffee ever gets further west than Constantinople. All the best grains are picked out for use nearer home, and only the pale, shriveled and broken seeds are left to reach any foreign shore.

CALIFORNIA is taking up silk culture with enthusiasm. The State Board of Silk Culture sent 10,000 mulberry trees and cuttings to silk cultivators, and this season will put out 50,000 more. Worms and eggs are given to applicants who desire them and are already the owners of mulberry trees.

ABOUT a year ago a syndicate of New Yorkers set out a thousand acres of land in Florida as an experiment in growing tobacco. Two kinds of Havana, Sumatra, Pennsylvania, Wisconsin and Connecticut and the old Florida broad-leaf tobaccos were planted, all of which have grown luxuriantly, and is expected will average from 600 to 1,500 pounds per acre. There are now only about 3,000 acres in Florida under cultivation for tobacco, but if success shall crown the present experiment a great increase in acreage may be expected in a few years.

BESIDES the large daily consumption of fresh milk, a large amount is used by the condensing and canning establishments for use in places and at times where the liquid article can not be had. This business has assumed large proportions, and the American condensing establishments turn out large quantities of milk condensed to a nearly solid form and canned for exportation as well as home consumption. This form of milk is used by travelers, explorers and armies all over the world, affording thus at once both a necessary article and a luxury.

THE city of San Francisco has, according to its papers, fully five thousand opium slaves, embracing boys and girls as well as men and women, and the number is said to be rapidly increasing. The victims of the habit are moral and physical wrecks.

WATCH cases are now being made entirely of rock crystal or Brazilian pebble, thus rendering them transparent and exposing to view the movements and machinery within. They are beautiful in appearance and are said to be as durable and perfect as those of metal.

THE gold mines of North Carolina are again being vigorously developed, and exceptionally rich yields are reported from the most of them. At the Mann-Arlington, in Nash County, some men who work over the tailing merely are said to make twenty-four dollars a day.

IT is stated that a company has been formed in London to work the patents of the Priestman petroleum engine in this country. This engine has been successfully used in England for electric lighting, and the projectors are sanguine, owing to the cheapness of oil in this country, of doing a good business.

THE champion female bigamist of the United States was lately brought to account in the person of a young woman thirty years of age, who has married no less than fourteen men in different parts of the country. C. F. Simmons, St. Louis, Prop'r M. A. Simmons Liver Medicine, Est'd 1840, in the U. S. Court DEFEATS J. H. Zeilin, Prop'r A. Q. Simmons Liver Regulator, Est'd by Zeilin 1868.

M. A. S. L. M. has for 47 years cured INDIGESTION, BILIOUSNESS, DYSPEPSIA, SICK HEADACHE, LOSS OF APPETITE, SOUR STOMACH, ETC.

Rev. T. B. Reams, Pastor M. E. Church, Adams, Tenn., writes: "I think I should have been dead but for your Genuine M. A. Simmons Liver Medicine. I have sometimes had to substitute "Zeilin's stuff" for your Medicine, but it don't answer the purpose."

Dr. J. R. Graves, Editor *The Baptist*, Memphis, Tenn. says: I received a package of your Liver Medicine, and have used half of it. It works like a charm. I want no better Liver Regulator and certainly no more of Zeilin's mixture.
